PROFILE

Data Analyst with 3+ years of experience delivering actionable insights and automated reporting for 7+ enterprise clients simultaneously. Skilled in SQL (PostgreSQL/MySQL), Python, and BI tools (Apache Superset, Looker Studio, Redash), with a track record in client reporting, scripted data workflows, and user behavior analysis. Comfortable working asynchronously with distributed teams via Slack, Zoom, Microsoft Teams, and Google Meet. Open to remote opportunities with global or APAC-based organizations.

WORK EXPERIENCE

Happy5

2023 – Present

Data Analyst | Customer Success

- Managed data reporting for 7+ clients monthly across weekly, monthly, quarterly, and annual cadences via Redash, Google Sheets, and Apache Superset
- Achieved >90% user adoption and >70% monthly retention through structured client onboarding and engagement plans
- Built SQL queries and Python scripts to automate recurring client reports and Excel exports
- Developed and maintained dashboards in Apache Superset and Looker Studio for client-facing analytics
- Provided daily ad-hoc data support and bug triage, acting as primary analytics partner for enterprise clients

Clients: Biofarma, BNI, BSI, Sampoerna, Danamas, Privy, Mitsubishi Corporation, Intikom, KCSI, and others

Soltius Indonesia

2021 – 2022
